Equipment Maintenance Record

Location: _____ Date: _____

OSHA regulation 1910.272 paragraph L requires that regularly scheduled inspections of "critical equipment" be conducted and recorded. OSHA considers the following to be critical equipment: Legs, Grain dryers, Grinding equipment, and dust collection equipment. To best accomplish this requirement; use this or a similar form to keep a maintenance record of individual equipment.

Equipment Name	Inspection Frequency	Lubrication Frequency
DATE INSPECTED	**DATE INSPECTED**	**DATE LUBRICATED**

Other Maintenance Performed: (List here such things as belt replacement, bearing replacement, or other equipment repairs.)

Maintenance Performed	By Whom	Date
